Comments/Concerns

I want to make an anonymous tip. For 3 months I have driven in front of the Love's Truck located at St Stephen's Rd and Interstate 65. Since I know Prichard Water is trying to fix the Water and Sewer system. I wanted to bring to your attention that the water main feeding water to Loves Truck Stop has been leaking for 3 months. To see the water leaking all you have to do is drive up the entrance road. Water is just flowing down the curb and pooling up on the service road. There is no telling how many 10s of thousands of gallons of water has been wasted.

Mayor jimmie gardner don't know how to manage the city of Prichard he can't even get businesses to come to the city because of lack of police protection and also he took money from the water company when the money could have been used to help the crumbling water system. Water theft half of the city officials and his friends don't pay water bills.

Comments/Concerns

I represent P & G Properties, LLC at 228 S. Dr. MLK Dr. Prichard, AL 36610.

I have contacted Jay Ross who I believe is the attorney for the Water Board and he provided my information to you concerning sewer backup located at 228 S. Dr. MLK Dr.

The backup is causing a health issue for my clients. One of the owners is in her 80's.

Because I have not had a response, I have advised my client to contact the media and let them investigate why a public health and safety issue is not being addressed.

Furthermore, if this issue is not addressed shortly, I will file a motion to intervene with Judge Youngpeter and advise him that health and safety issues are not being addressed as he ordered.

Comments/Concerns

Sirs:

I have recently been denied water service to one side of a duplex, 1419 St. Clair Ave in Alabama Village. I have owned this house for over 40 years and have had the other side rented to the same tenant under Section 8 for 27 years. Until now, I have done a lot of business with Prichard Water and would like to continue a good relationship.

I would like to speak with Mr. John Young, at his convenience about this matter. Thank you!

I commend the work of John Young in Prichard, which I learned as I read the article entitled "At It Again" in AWWA's Journal The Last Drop section. Interested in seeing the approach for reducing water loss, as we are facing an arguably similar situation in Puerto Rico.

Comments/Concerns

I was just reading about the water situation in Pritchard in the SPLC newsletter I receive. I hope Mr Young can turn things around there. It is absolutely disgusting that it had to come to this stage before anything would be done. Good Luck and I'll be watching for some good news, sooner than later, I hope!

Comments/Concerns

We have reported leaks on Cedar Lane in Eight Mile for years. The road is always experiencing leaks and all we get are patch jobs that only last a month or so. Now the County is out to pave our road (a 30 year wait) and it can't be done due to Prichard not doing their job. We have made repeated request for the Supervisor to contact me at 251-442-1362 but I never receive a call. All I ever get from people is we have a lot of leaks. If the leaders of Prichard had done their job we would not be in this situation. We need our leaks repaired so the residents of Cedar Lane can get the road paved. I would appreciate it if the supervisor or someone in a decision making role would contact me. Thank you.

I dont know why Judge Youngpeter appointed the Advisory Board, reminds me of the Water Board Meetings. The Advisory Board does not speech for all the citizens of Prichard. I think he should stop them from meeting. Let the Receiver do his job.

I'm a reporter with NBC 15 News. The recent contract with Hazen and Sawyer that was signed and submitted to the court, was that bid out? Does the receiver have to bid contracts and comply with Alabama bid law?
